

2026 Sponsorship Impact & Opportunities

Our Mission:

We harness the power of our community to grow organic vegetables and give them to those in need while practicing, teaching, and promoting climate-friendly farming.

Your Sponsorship helps to...

Build Food Security in Maine

- We grow **organic vegetables**, including culturally appropriate crops, to ensure our recipients have access to foods that align with their nutritional needs, traditions, and preferences.
- We provide **fresh, nutrient-dense produce** to over 30 food-access sites spanning six Maine counties.
- We donated over **18,500 lbs of fresh, organic produce last year**. Since our launch in 2017, we have donated nearly 125,000 lbs of vegetables, the equivalent of more than 100,000 meals.

Expand Our Educational Programming

- We provide **hands-on learning experiences** that teach sustainable agriculture and equitable food systems to youth, volunteers, interns, businesses, and other community members. In 2025, we had over 2,700 contact hours with nearly 700 students.
- We host the **Farm Skills Training Program**, where participants gain farming experience and job skills while contributing to our mission.
- We create **opportunities** to foster inclusive conversations about the intersection of food, culture, and community well-being.

Invest in Organic Vegetable Production & Climate-Friendly Farming

- We practice **regenerative farming** methods like no-till cultivation, cover cropping, and sheet mulching (aka lasagna mulching) to combat climate change and enhance soil health.
- We've created a **sustainable farming model** that contributes to biodiversity with pollinator-friendly habitats, native plantings, and heirloom seed preservation.
